

CERTIFIED RECORD OF LAND CORNER MONUMENTATION

History of original corner establishment:

Index: R-9

Corner, Secs. 20, 21, 28, & 29, T1S, R32E, WM.

Corner originally set by Daniel Chaplin in contract 107 dated Sept, 21, 1864, his record reads: Set post for Cor. to secs 20, 21, 28, and 29, in mound of earth with charred stake, pits, trench, etc. as per instructions.

Description of corner evidence found:

Found and rejected a 2 1/2" brass cap by PLS 346 which was set as a reference monument 35' north of his proportioned point for the corner on line. A survey by Stanley Wallulis, A survey by J.C. Payne, and the county road notes all agreed as to the location of the corner and this location was in agreement with the fences in the area and the centerline of the existing county road along the section line to the North.

Description of monument and accessories I established to perpetuate the original location of this corner:

The corner point fell in the back yard of a residence underneath the clothes line. A 2 1/2" brass cap on a 30" galvanized iron pipe was placed at the true corner point and stamped as in the diagram above. I set the following reference objects:

A 5/8"x24" rebar with 2" Al cap bears N60°33'W, 14.7', stamped B.O., ORLS 852, AND WALS 13922.

A 1 1/4" brass disc epoxied to the Northwest corner of the concrete foundation of the house bears N22°36'E, 17.8' stamped ORLS 852 and WALS 13922.

A 1 1/4" brass disc epoxied to the concrete foundation of the house at the North East corner of the concrete patio bears S59°33'E, 10.2' stamped ORLS 852 and WALS 13922.

A 1 1/4" brass disc epoxied to the cinder block retaining wall at the North West corner of the concrete patio bears S26°36'W, 10.1' stamped ORLS 852 and WALS 13922.

The bearings are based on GPS observations and are true from the section corner to the north.

This work was done October 26, 1995 and witnessed by Stephen Haddock.
